

# TECHTILE: Haptic Design Workshop

15.30 - 18.00, November 29<sup>th</sup>, 2016

Organizers: Kouta Minamizawa, Junichi Kanebako (Keio University, Japan)

This workshop consists of a series of hands-on trials to design haptic experiences using TECHTILE toolkit.

- 1) Introduction - try to use the toolkit
- 2) Haptic information design - Design haptic vibration by capturing various kind of haptic textures from daily objects.
- 3) Haptic experience design - Design and prototype a future product or service by designing haptic experiences.
